6. [REDACTED] Talked with Bob Michaels, House Appropriations Committee staff, regarding queries I had from Paul Mohr concerning possible detail of an Agency communications type to an Appropriations Committee investigating team. I indicated that this potentially could raise difficulties which he was well aware of. Michaels indicated that he wanted to think this over a bit. In addition, I asked him to ascertain a few more of the facts regarding the team and we will get together on this.

7. [REDACTED] Talked to Jim Kendall, Senate Preparedness Investigating Subcommittee staff, who indicated that his personal thinking was changing a bit and he thought it might serve a useful purpose to have the Director appear before the Stennis Subcommittee. I pushed fairly hard on this indicating certainly no new information would be elicited and the Director very much would like to avoid this. I believe that Kendall is probably dissuaded on this although we might hear more.

8. [REDACTED] Met with Mr. Charles E. Johnson, Staff Director, House Post Office and Civil Service Committee, and reviewed with him Senate Judiciary Committee action on S. 1035, the Ervin Bill, and the handling of H.R. 10647 and H.R. 10966 in the Post Office and Civil Service Committee. Mr. Johnson advised that it had not been explained why H.R. 10647 and H.R. 10966 had been assigned to Post Office and Civil Service. He also noted that the press attacks on the Chairman over the past two weeks had been very upsetting, and the discussion of such matters as the Ervin Bill at the present time with either the Chairman or Representative Corbett would not be beneficial. In conclusion, he agreed that assignment of the Ervin Bill to House Post Office and Civil Service, in the event of passage by the Senate, would provide an appropriate form for handling the measure. Mr. Johnson thanked me for coming by and indicated that he will be engaged in various meetings later in the day and tomorrow, involving similar matters and will call me after the meetings.

9. [REDACTED] Met with Mr. William E. Kreigsman, Assistant to Senator Howard H. Baker (R., Tenn.), and delivered to him a study entitled "Advance Converter Reactors" and a table outlining Fast Reactors. After review of the items, Mr. Kreigsman was complementary of the presentations and the Agency's response to Senator Baker's request.
